

Hickory Ridge Village Center Redevelopment Survey Overview

BACKGROUND

Kimco Realty, the owners of the Hickory Ridge Village Center, proposed redeveloping the Village Center and adding apartments on the site. After presenting an initial plan in the fall of 2015, Kimco held several community meetings where residents expressed concern about aspects of the Village Center Plan. Based on the community feedback, Kimco chose to rework the initial Plan. At a meeting in September 2016, Kimco presented a new design to the community.

As part of the Village Center Redevelopment process, the Hickory Ridge Village Board will be asked to provide a statement regarding the proposed redevelopment to the Howard County Planning Board.

Q2: The Howard County Zoning regulations defines a village center as a mixed-use development in the New Town District which is in a location designated on the New Town Preliminary Development Plan as a “village center”, which is designed to be a community focal point and gathering place for the surrounding village neighborhoods by including the following items:

- * An outdoor, public, village green, plaza or square, which has both hardscape and softscape elements. This public space shall be designed to function as an accessible, primarily pedestrian-oriented promenade connecting the various village center buildings and shall include public seating features;
- * Stores, shops, offices or other commercial uses which provide opportunities to fulfill the day-to-day needs of the village residents, such as food stores, specialty stores, service agencies, financial institutions, personal services, medical services, and restaurants;
- * Space for community uses and/or institutional uses; and
- * Residential uses, to the extent appropriate to support and enhance, but not overwhelm, other uses in the village center.

In your opinion, does Kimco’s Village Center Plan meet the criteria, as defined above?
