2024 Election Committee Final Report

2024 Election Committee members: Celindah Grier, Kathleen St. Villier Hill, Nemo Lionikis, Don Warner, Maya Zagara

The Election Committee was formed and commenced work in late October 2023. The Committee was charged by the Hickory Ridge Village (HRV) Board with the following tasks:

- drafting recommended changes to existing election forms and documents;
- organizing and presenting a Board member proposal for eliminating candidate campaign contributions & expenditures;
- reviewing and offering recommendations on several other issues pursuant to Village Board elections; and,
- arranging, facilitating and overseeing the 2024 HRV elections in accordance with Village policies and by-laws.

Initially, the Committee focused on drafting wording changes to forms and instructions necessary to eliminate errors in reporting campaign contributions. These changes were presented to the Board and unanimously approved in December 2023.

The Committee then reviewed a proposal by HRV Board member Jared Ball which would eliminate expenditures by candidates for their individual campaigns. The Committee reviewed and made changes to all election documents and forms impacted by this proposal. The results were presented to the Board and the proposal was adopted unanimously in January 2024.

During February, the Committee reviewed and presented recommendations on several other election-related issues, to include enabling the acceptance of absentee ballot drop-off on the Friday evening prior to Election Day. The Board concurred with the Committee's recommendations.

The Committee then turned to the 2024 elections and drafted a Candidate Questionnaire that would be included as part of election materials.

In early March, the Committee reviewed incoming candidate packages for compliance and accuracy. Being that five Village residents submitted packages for Village Board seats and one Village member submitted a package for CA Board, the election was uncontested. Additional activities related to 2024 elections were halted at that time.

Follow-on Recommendations

1. The Board should consider convening the 2025 Election Committee in a similar timeframe as this year's. Although the level of tasking may not be similar, Committee members felt that having extra time resulted in more thoughtful consideration of election issues and less pressure.

The Committee expresses its appreciation to Village Manager Laura Mayton for her consistent guidance, advice, and encouragement. We would also like to thank the 2023 HRV Board members and CA representative for their support in accomplishing the assigned tasks. We express additional gratitude to Board member Chris Smith, who was particularly engaged in helping to organize and focus our work. Thank you.

NAMED GIFT OPPORTUNITIES

HOWARD COMMUNITY COLLEGE
The Kahlert Foundation Complex

The Kahlert Foundation Complex will unite both academics and athletics to accommodate the increased enrollment of students in mathematics classes while meeting new athletic programmatic demands. The four-story 163,375 square foot facility will also provide necessary space for recreation, student services functions, and a multipurpose event area.

The U.S. Bureau of Labor Statistics reports that 15 of the 20 fastest growing occupations will require significant science and math preparation. Mathematics is a critical survival skill in today's non-tech workforce as well, with many jobs requiring proficiency with budgeting, forecasting, and estimation. Students of HCC's mathematics courses develop a core foundation to help them not only survive but thrive, and are prepared for transfer to a four-year institution or to a career in the workforce.

SOLVE THE EQUATION FOR SUCCESS!

Howard Community College's new building, The Kahlert Foundation Complex, will link student pursuits for the mind and body that will serve as a central hub and provide critical space for student learning and engagement.

Imagine these spaces helping to develop today's students into tomorrow's auditors, accountants, research analysts, medical or data scientists, economists, software developers, athletic directors, athletic coaches, sports therapists and professional athletes. Now, imagine leaving your mark on one of these available spaces as permanent recognition of your contribution to a mathematics or athletics career pathway!

" Everyone uses math. If you have a strong base, it's going to make your life a heck of a lot easier. The ability to progress in education can change a person's life and give them hope. And, it empowers the community and this country to move forward."

" Without the financial burden of debt I've been able to focus solely on my education and athletics. As these have become my main priorities. I've been able to excel. I'm forever indebted to the donors. Thank you HCC!"

Re: Expiration of Management Contract

Dear Village Board:

I acknowledge receipt of Ms. Amari's letter dated April 30, 2024, which was sent via email and received on May 2. That letter attached a Second Amendment to Management Contract, signed by Ms. Amari, that contained an additional term that was not part of the proposed Second Amendment to Management Contract that was sent to the Hickory Ridge Community Association, Inc. (the "Association") last fall.

Given the changes in the terms of the proposed agreement that CA sent to the Association, no new agreement extending the terms of the Management Contract dated August 24, 2018, as amended (the "Contract"), was entered into by May 1, 2024. Accordingly, as indicated in my March 1 letter, CA will extend the Association's right to manage CA's facilities through September 30, 2024, under the terms and provisions of the Contract, until a new agreement is reached. Per the Contract, should no agreement be reached, no unreasonable demands made, and upon a vote of CA's Board of Directors, the Contract would be deemed terminated and the Association shall vacate CA's facilities by November 30, 2024.

While CA has initiated the process of a village/CA work team to consider updates to the "assessment share formula" during the current fiscal year, concurrent to the management contract update process, CA will not agree to item no. 4 in the Association's revised draft.

CA remains hopeful that it will enter into a new agreement with the Association.

Thank you for your consideration.

Very truly yours,

John J. Kuchno
General Counsel
