

## Stephen Hannan

If I am elected my focus will be to encourage village residents to become involved in village activities, including the upcoming election. Our residents are varied in skills and expertise. If engaged, they offer both the Board and the village a depth of knowledge and a wealth of wisdom on which to draw.

Engagement does not always mean additional work, tasks or jobs for the community. My focus would be on communication, dialog, and interaction both at planned event or just while walking my dog. I ask for your ideas and your vote.
